***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance:
2. The subject matter of the independent claims could not be found and was not suggested by the prior art of record. The subject matter not found is a medication dispensing apparatus comprising screw element threaded to a housing with a first lead, a plunger threaded to the screw element with a second lead, and a drive member shaft having threading of a third lead, and a dose preparing arrangement and a dose dispensing arrangement, in combination with the invention substantially as claimed.
3. The closest prior art of record is Balkwill (US 5,279,585). Balkwill discloses a medication delivery pen similar to that of applicant, but fails to teach threaded members having a first, second, and third leads each of a different value. This feature was not suggested by any other prior art references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
